ESRA2 Country Fact Sheet

ESRA (E-Survey of Road Users' Attitudes) is a joint initiative of road safety institutes, research centres, public services, and private sponsors, from all over the world. The aim is to collect and analyse comparable data on road safety performance, in particular road safety culture and behaviour of road users. The ESRA data are used as a basis for a large set of road safety indicators. These provide scientific evidence for policy making at national and international levels. Vias institute in Brussels (Belgium) initiated and coordinates ESRA, in cooperation with eleven core group partners (BAST, BFU, CTL, IATSS, IFSTTAR, ITS, KfV, NTUA, PRP, SWOV, TIRF). At the heart of ESRA is a jointly developed questionnaire survey, which is translated into national language versions¹. The themes covered include: self-declared behaviour, attitudes and opinions on unsafe traffic behaviour, enforcement experiences and support for policy measures. The survey addresses different road safety topics (e.g. driving under the influence of alcohol, drugs and medicines, speeding, distraction) and targets car occupants, motorcycle and moped drivers, cyclists and pedestrians.

This fact sheet contains the key results of the second edition of the ESRA survey, which was conducted simultaneously in 32 countries in 2018 and in 16 countries between 2019 and 2020. In total this online panel survey collected data from more than 45 000 road users (1005 in Bulgaria). An overview of the initiative and more results are available on www.esranet.eu. The following figures show a core set of variables in which Bulgaria (green) is compared with the European ESRA2 mean² (white).

Mode of transportation

During the past 12 months, how often did you use the following transport modes (5-point scale from 1=never to 5=at least 4 days week)

Safety feeling

How safe or unsafe do you feel when using the following transport modes (11-point scale from 0=very unsafe to 10=very safe)

Self-declared behaviour

Over the last 30 days, how often did you... (5-point scale from 1=never to 5=(almost) always)

DUI as a car driver

Distraction & fatigue as a car driver

Speeding as a car driver

Seat belt use in a passenger car

* specified based on national regulation on this topic

Self-declared behaviour

Over the last 30 days, how often did you... (5-point scale from 1=never to 5=(almost) always)

Powered Two Wheelers

Pedestrians

Cyclists

* specified based on national regulation on this topic

Sample size*

Road users who use each transport mode at least a few days per month.

Mode of transportation	Bulgaria	Europe24
Car drivers	686	18225
Car drivers who transported children (<18y) exempt from using CRS	241	6797
Car drivers who transported children (<18y) non-exempt from using CRS	305	7300
Car passengers	825	16372
Powered Two Wheelers	152	3136
Pedestrians	914	22162
Cyclists	416	10141

*weighted sample for self-declared behaviours.

Personal acceptability

How acceptable do you, personally, feel it is for a CAR DRIVER to ... (5-point scale from 1=unacceptable to 5=acceptable)

DUI

Distraction

Seat belt

Speed

Others' acceptability

Where you live, how acceptable would most other people say it is for a CAR DRIVER to ... (5-point scale from 1=unacceptable to 5=acceptable)

DUI

Distraction

Seat belt

Speed

Enforcement

On a typical journey, how likely is it that you (as CAR DRIVER) will be checked by police for... (7-point scale from 1=very unlikely to 7=very likely)

In the past 12 months, how many times (as a CAR DRIVER) have you been checked by the police for... (number)

Involvement in road crashes

In the past 12 months, how many times have you personally been involved in road crashes as... (number)

Vehicle automation

How interested would you be in using a... (7-point scale from 1=not at all interested to 7=very interested)

Background Data

Basic data of Bulgaria in relation to the European average³.

Exposure

	year	BG
total length of roads (km)	NA	NA
total length of motorways (km)	NA	NA
vehicle kilometres (total in millions)	NA	NA
motorisation rate (motor vehicles/1000 inhab.)	2016	565.3
